WILL COUNTY
STATES ATTORNEYS OFFICE
SEARCH WARRANT NO. 07-12-____

Illinois State Police PR # 07-18261LP

SEARCH
WARRANT

TO ALL PEACE OFFICERS OF THE STATE OF ILLINOIS:

On this day, Tuesday, December 4th, 2007, Complainant-Affiant Special Agent Patrick Callaghan of the Illinois State Police has signed and sworn to a complaint for search warrant before me. Upon examination of the written complaint, I find that said complaint on its face states facts sufficient to show probable cause for the issuance of a search and seizure warrant, and I therefore command that the following vehicles which have been utilized in the commission of the offenses of First Degree Murder (720 ILCS 5/9-1(a)(1)) or Concealment of a Homicidal Death (720 ILCS 5/9-3.1(a)) be seized, searched, forensically analyzed, and retained pending possible forfeiture:

- A. A 2005 Dark blue GMC Denali SUV with Illinois registration 7343709, with VIN# 1GKFK66U95J113419.
- B. A 2002 Purple Pontiac Grand Prix with Illinois registration 1592942, with VIN# 1G2WP12K22F226507.

are to be searched and that the following described instruments, articles, and things which have been used in the commission of, or which constitute evidence of the offense of First Degree Murder (720 ILCS 5/9-1(a)(1)) or Concealment of a Homicidal Death (720 ILCS 5/9-3.1(a)) be seized, searched, forensically analyzed, and retained:

- A. Any and all objects, leavings or scrapings which contain or have traces of any of the following on them: blue plastic, lead weights, plastic shavings, plastic scuff marks, circular impressions or carpet indentations, and any other indication of the carrying, placing, movement or collision of a plastic or barrel-like object or large storage container.
- B. Any and all trace materials on the outside or inside of the vehicles including dirt, gravel, soil, dust, and any other accretive material which might be tested and compared to materials from a particular location to determine a vehicle's presence at the location.
- C. Any and all objects which appear to contain or have any of the following on them: blood, hairs, fingernails, bodily fluids, body tissue, DNA, fingerprints, fingernail scrapings, palm prints, saliva, urine, feces, or other biological material which may be evidence of the offense of First Degree Murder.
- D. Any and all instruments which may have been utilized as a weapon or restraint, including but not limited to firearms, ammunition, knives, rope, carpet, and rugs.
- E. Any and all papers within either vehicle, including but not limited to gasoline or vehicle maintenance receipts, insurance information, vehicle manuals, and other paper items within either vehicle.
- F. Any and all computers as defined in 720 ILCS 5/16D-2, including but not limited to in-dash GPS navigation systems.
- G. Any and all objects with chemical traces relating to pool chemicals or any chemical which might be utilized to either retard, mask or accelerate the deterioration or decomposition of a human body.
- H. A 2005 Dark blue GMC Denali SUV with Illinois plate 7343709, with VIN# 1GKFK66U95J113419.
- I. A 2002 Purple Pontiac Grand Prix with Illinois plate 1592942, with VIN# 1G2WP12K22F226507.

FORENSIC ANALYSIS AND RETURN OF SEARCH WARRANT: This seizure and search warrant shall include authority for long term scientific analysis and the chemical, trace, or other scientific testing and search of any items seized for relevant evidence as outlined in this seizure and search warrant.

This seizure and search warrant shall be considered formally returned within a reasonable time period by listing all physical items seized pursuant to the warrant, but items seized pursuant thereto will be retained until all available means of testing are exhausted, or until such time as other items of evidence are available for comparison to the items seized and retained, or until the evidentiary value of said items has been determined at evidentiary hearing to be non-existent and no forfeiture proceeding has been filed.

Full search warrant return including the results of all computer forensic and scientific analysis contemplates a reasonable time period in light of the fact that a GPS navigation computer system contains data in a format that is not easily obtained or searched. It also contemplates that specialized scientific and forensic testing can take long periods of time both to arrange and complete.

USE OF UNSWORN PERSONNEL: Forensic analysis of any seized computer equipment pursuant to this search warrant may be conducted by employees of law enforcement agencies who are not sworn law enforcement personnel, but are instead civilian employees, particularly related to the automobile industry.

I further command that a return of any physical items so seized shall be made without unnecessary delay before me or before Judge S. WHITE or before any Court of competent jurisdiction.

Judge Daniel J. Rozak
Presiding Criminal Judge
Twelfth Judicial Circuit

SEARCH
WARRANT

TO ALL PEACE OFFICERS OF THE STATE OF ILLINOIS:

On this day, Tuesday, November 6th, 2007, Complainant-Affiant Investigator David J. Margliano of the Will County State's Attorney's Office (Will County SAO) has signed and sworn to a complaint for search warrant before me. Upon examination of the written complaint, I find that said complaint on its face states facts sufficient to show probable cause for the issuance of a search warrant, and I therefore command that the following be searched:

- A. A single family residence located at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as a two story residence with white siding and pinkish-tan brick, a western exposure with the number '6' located above the attached garage door, which faces the street.
- B. A 25 foot recreational trailer located in the southeast corner of the east yard of the residence at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as bearing the words Sportsman 25th Anniversary, K-Z Inc. 3303, with a sticker indicating Recreation Vehicle Industry Association number 6257982. This yard is surrounded by a brown picket fence.
- C. A storage area beneath an above ground pool located in the east yard of the residence at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as a 25' round, 4' deep pool with decking on the south side, white in color with a blue cover, with a fenced-in area beneath the pool.

be searched and that the following described instruments, articles, and things which have been used in the commission of, or which constitute evidence of the offense of First Degree Murder (720 ILCS 5/9-1(a)(1)) or Concealment of a Homicidal Death (720 ILCS 5/9-3.1(a)) be seized, searched and forensically analyzed:

- A. Any and all computers as defined in 720 ILCS 5/16D-2, including but not limited to an Apple Macintosh brand laptop computer, cellular telephones, desktop computers, laptop computers, PDAs, iPods, WebTVs along with any computer accessories including cables and cradles, or peripherals connected thereto, and any and all computer software;
- B. Any and all magnetic, digital or optical media including but not be limited to hard disk drives, floppy disks, compact discs ("CDs"), digital video discs ("DVDs"), universal serial bus ("USB") devices, tapes, memory cards or sticks, and any other media which is capable of storing any form of digital data;
- C. Any and all passwords, encryption or decryption mechanisms, or other computer security devices;
- D. Records evidencing occupancy or ownership of the premises described above including but not limited to passports, utility and telephone bills, mail envelopes or address correspondence, diaries, or user manuals.

FORENSIC ANALYSIS: This search warrant shall include authority to analyze and search any media seized for relevant evidence as outlined in this search warrant. This search warrant shall be considered formally returned within a reasonable time period by listing all physical items seized pursuant to the warrant.

RETURN OF SEARCH WARRANT: Full search warrant return including the results of all forensic analysis contemplates a reasonable time period in light of the fact that modern hard drives can potentially contain millions of pages of data in a format that is not easily searched. This search warrant shall permit the decryption of any encrypted or password-protected digital data.

USE OF UNSWORN PERSONNEL: Forensic analysis of any seized computer equipment pursuant to this search warrant may be conducted by employees of law enforcement agencies who are not sworn law enforcement personnel, but are instead civilian employees.

I further command that a return of any physical items so seized shall be made without unnecessary delay before me or before Judge R. SCHREIBER or before any Court of competent jurisdiction.

SEARCH
WARRANT

TO ALL PEACE OFFICERS OF THE STATE OF ILLINOIS:

On this day, Thursday, November 1st, 2007, Complainant-Affiant Investigator Cindi Shervino of the Will County States Attorneys Office has signed and sworn to a complaint for search warrant before me. Upon examination of the written complaint, I find that said complaint on its face states facts sufficient to show probable cause for the issuance of a search warrant, and I therefore command that the following be searched:

- A. A 25 foot recreational trailer located in the southeast corner of the east yard of the residence at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as bearing the words Sportsman 25th Anniversary, K-Z Inc. 3303, with a sticker indicating Recreation Vehicle Industry Association number 6257982. This yard is surrounded by a brown picket fence.
- B. A storage area beneath an above ground pool located in the east yard of the residence at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as a 25' round, 4' deep pool with decking on the south side, white in color with a blue cover, with a fenced-in area beneath the pool.

be searched and that the following described instruments, articles, and things which have been used in the commission of, or which constitute evidence of the offense of First Degree Murder (720 ILCS 5/9-1(a)(1)) or Concealment of a Homicidal Death (720 ILCS 5/9-3.1(a)) be seized, searched and forensically analyzed:

- A. Any and all objects which appear to contain or have any of the following on them: blood, hairs, fingernails, bodily fluids, body tissue, DNA, fingerprints, fingernail scrapings, palm prints, saliva, urine, feces, or other biological material which may be evidence of the offense of First Degree Murder.
- B. Any and all instruments which may have been utilized as a weapon or restraint, including but not limited to firearms, ammunition, knives, rope, carpet, and rugs.
- C. Any and all computers as defined in 720 ILCS 5/16D-2, including but not limited to cellular telephones, desktop computers, laptop computers, PDAs, iPods, WebTVs along with any computer accessories including cables and cradles, or peripherals connected thereto, and any and all computer software;
- D. Any and all magnetic, digital or optical media including but not be limited to hard disk drives, floppy disks, compact discs ("CDs"), digital video discs ("DVDs"), universal serial bus ("USB") devices, tapes, memory cards or sticks, and any other media which is capable of storing any form of digital data;
- E. Any and all passwords, encryption or decryption mechanisms, or other computer security devices;
- F. Any and all chemicals or chemical containers having the quality to dissolve biological evidence, caustic in nature, or having the qualities of a preservative.

FORENSIC ANALYSIS: This search warrant shall include authority to analyze and search any media seized for relevant evidence as outlined in this search warrant. This search warrant shall be considered formally returned within a reasonable time period by listing all physical items seized pursuant to the warrant.

RETURN OF SEARCH WARRANT: Full search warrant return including the results of all forensic analysis contemplates a reasonable time period in light of the fact that modern hard drives can potentially contain millions of pages of data in a format that is not easily searched. This search warrant shall permit the decryption of any encrypted or password-protected digital data.

USE OF UNSWORN PERSONNEL: Forensic analysis of any seized computer equipment pursuant to this search warrant may be conducted by employees of law enforcement agencies who are not sworn law enforcement personnel, but are instead civilian employees.

I further command that a return of any physical items so seized shall be made without unnecessary delay before me or before Judge COZAK or before any Court of competent jurisdiction.

SEARCH
WARRANT

TO ALL PEACE OFFICERS OF THE STATE OF ILLINOIS:

On this day, Wednesday, October 31st, 2007, Complainant-Affiant Sergeant Patrick Collins of the Illinois State Police has signed and sworn to a complaint for search warrant before me. Upon examination of the written complaint, I find that said complaint on its face states facts sufficient to show probable cause for the issuance of a search warrant, and I therefore command that the following be searched:

- A. A single family residence located at 6 Pheasant Chase Court in Bolingbrook, Will County, Illinois, further described as a two story residence with white siding and pinkish-tan brick, a western exposure with the number '6' located above the attached garage door, which faces the street.
- B. A 2005 GMC SUV with Illinois registration 7343709, with VIN# 1GKFK66U95J113419.
 - a. All records in the possession of OnStar, Inc., a subsidiary of General Motors Corporation, located at 400 Renaissance Center, Detroit, MI 48265, from a 2005 GMC SUV with Illinois registration 7343709, with VIN#1GKFK66U95J113419.
- C. A 2002 Pontiac Coupe with Illinois registration 1592942, with VIN# 1G2WP12K22F226507.

be searched and that the following described instruments, articles, and things which have been used in the commission of, or which constitute evidence of the offense of First Degree Murder (720 ILCS 5/9-1(a)(1)) or Concealment of a Homicidal Death (720 ILCS 5/9-3.1(a)) be seized, searched and forensically analyzed:

- A. Any and all objects which appear to contain or have any of the following on them: blood, hairs, fingernails, bodily fluids, body tissue, DNA, fingerprints, fingernail scrapings, palm prints, saliva, urine, feces, or other biological material which may be evidence of the offense of First Degree Murder.
- B. Any and all instruments which may have been utilized as a weapon or restraint, including but not limited to firearms, ammunition, knives, rope, carpet, and rugs.
- C. Any and all computers as defined in 720 ILCS 5/16D-2, including but not limited to cellular telephones, desktop computers, laptop computers, PDAs, iPods, WebTVs along with any computer accessories including cables and cradles, or peripherals connected thereto, and any and all computer software.
- D. Any and all magnetic, digital or optical media including but not be limited to hard disk drives, floppy disks, compact discs ("CDs"), digital video discs ("DVDs"), universal serial bus ("USB") devices, tapes, memory cards or sticks, and any other media which is capable of storing any form of digital data.
- E. Any and all passwords, encryption or decryption mechanisms, or other computer security devices;
- F. Evidence of ownership or use of computer equipment found in the above residence; including but not limited to sales receipts, bills for internet access, handwritten notes, records evidencing occupancy or ownership of the premises described above including but not limited to utility and telephone bills, mail envelopes or address correspondence, diaries, or user manuals.
- G. Any and all GPS records, cellular service records, logging records or any other electronic records in the possession of OnStar Inc. at the above address relating to the above described GMC vehicle.

FORENSIC ANALYSIS: This search warrant shall include authority to analyze and search any media seized for relevant evidence as outlined in this search warrant. This search warrant shall be considered formally returned within a reasonable time period by listing all physical items seized pursuant to the warrant.

RETURN OF SEARCH WARRANT: Full search warrant return including the results of all forensic analysis contemplates a reasonable time period in light of the fact that modern hard drives can potentially contain millions of pages of data in a format that is not easily searched. This search warrant shall permit the decryption of any encrypted or password-protected digital data.

USE OF UNSWORN PERSONNEL: Forensic analysis of any seized computer equipment pursuant to this search warrant may be conducted by employees of law enforcement agencies who are not sworn law enforcement personnel, but are instead civilian employees.

I further command that a return of any physical items so seized shall be made without unnecessary delay before me or before Judge POZAK or before any Court of competent jurisdiction.
